

Dave Wagner
dwagner@gpinet.com

Mr. Wagner is an experienced Department Director and Project Manager, and an expert in Asset Management Systems and Geographic Information Systems (GIS) who has managed Asset Management and GIS projects for New Jersey transportation agencies as well as numerous transportation agencies throughout the United States over the last 18 years. His responsibilities include project management, managing large amounts of data, schedule, scope, budget, staff while maintaining client relationships as well.

Company: Greenman-Pedersen, Inc

Education: BS, Penn State University. MBA, Lehigh University

Interests: Asset Management, Data Collection, Mobile LiDAR

GIS Achievement: Being the Director of an excellent group of GIS/Asset Management professionals

What I like about MAGTUG: It is an open forum to communicate with your peers, where marketing and business have little influence

Factoid: I love GIS, but am poor with directions.
