

Eric Chappell
eric.chappell@autodesk.com

Eric Chappell is the Civil Community Evangelist at Autodesk. He is a recognized expert in InfraWorks 360 and Civil 3D and has been writing and talking about both products since their inception. He has over 20 years' experience in the civil/survey field having served as field surveyor, designer, CAD manager, consultant, trainer, and many other roles relating to Civil 3D and InfraWorks 360. His most recognizable work is a series of essentials books for InfraWorks 360 and Civil 3D published by Wiley\Sybex. He resides in central Virginia and when he's not talking to folks about Autodesk civil products, he's spending time with his wife and four children, playing music, or enjoying the outdoors.

Company: Autodesk

Education: B.S. in Civil Engineering Technology from the University of Pittsburgh at Johnstown

Interests: Civil engineering, GIS, 3D modeling, music, outdoors, technology

GIS Achievement: Not necessarily GIS, but I have published several books having to do with Autodesk civil engineering software

What I like about MAGTUG: A group that is organized and highly committed to its members

Factoid: I began working for Autodesk in 2013
